

COVID-19 and Politics

By: J. Ian Stewart

The Question:

Did politics have an effect on COVID-19 cases?

Why?

well, because....

Background - Timeline

Masks:

- Government starts quarantining on March 12th, 2020
- Government recommends the use of masks on April 3rd, 2020
- People hate wearing masks and some begin to protest them

Vaccine:

- Government releases vaccine on December 14th, 2020
- People protested the vaccine and some decided on alternative medicine instead

The Data

COVID-19 Dataset

COVID-19 Reported Patient Impact and Hospital Capacity by State Timeseries (RAW)

From: U.S Department of Health & Human Services on healthdata.gov

Row: Daily Aggregated State Report

Size: 79823 rows, 135 columns

- Most columns are adult statistics split up into age groups
- Only used 4 columns:
 - State
 - Date
 - Previous_day_admission_adult_covid_confirmed
 - Previous_day_admission_pediatric_covid_confirmed

| | date | state | total_previous_day_cases |
|---|-----------|-------|--------------------------|
| 0 | 6/2/2021 | PR | 3.0 |
| 1 | 6/1/2021 | ME | 11.0 |
| 2 | 5/30/2021 | MT | 13.0 |
| 3 | 5/29/2021 | AK | 0.0 |
| 4 | 5/29/2021 | MA | 33.0 |

U.S. House of Congress Dataset

U.S. House 1976–2022 version 13

From: MIT Election Data and Science Lab
(Massachusetts Institute of Technology) on
dataverse.harvard.edu

Row: Candidate Votes by party and district

Size: 32452 rows, 20 columns

- Only used data through 2020 and 2022, ending up to 2816 rows actually used

| | year | state_po | party | candidatevotes | totalvotes | unofficial | district |
|-------|------|----------|------------|----------------|------------|------------|----------|
| 29636 | 2020 | AL | DEMOCRAT | 116949 | 329075 | False | 1 |
| 29637 | 2020 | AL | REPUBLICAN | 211825 | 329075 | False | 1 |
| 29638 | 2020 | AL | OTHER | 301 | 329075 | False | 1 |
| 29639 | 2020 | AL | REPUBLICAN | 197996 | 303569 | False | 2 |
| 29640 | 2020 | AL | DEMOCRAT | 105286 | 303569 | False | 2 |

Census Dataset

Resident Population for the 50 States, the District of Columbia, and Puerto Rico: 2020 Census

From: census.gov

Row: State 2020 Census Population

Size: 54 rows, 2 columns

- Excluded DC and Puerto Rico as they do not vote in House elections

| | AREA | POPULATION |
|---|------------|------------|
| 0 | Alabama | 5024279 |
| 1 | Alaska | 733391 |
| 2 | Arizona | 7151502 |
| 3 | Arkansas | 3011524 |
| 4 | California | 39538223 |

The Model: K-Means

Visualizations

COVID Caseload
vs
Political Orientation

X-Axis: Proportion of House Votes
for a Political Party (2020 or 2022)

Y-Axis: Normalized COVID Cases for
that year (2020-2023)

(Normalized meaning number of
COVID cases for a state in a year
divided by that state's 2020 census
population)

The Year 2020

Simple Linear Regression (2020)

Democrat

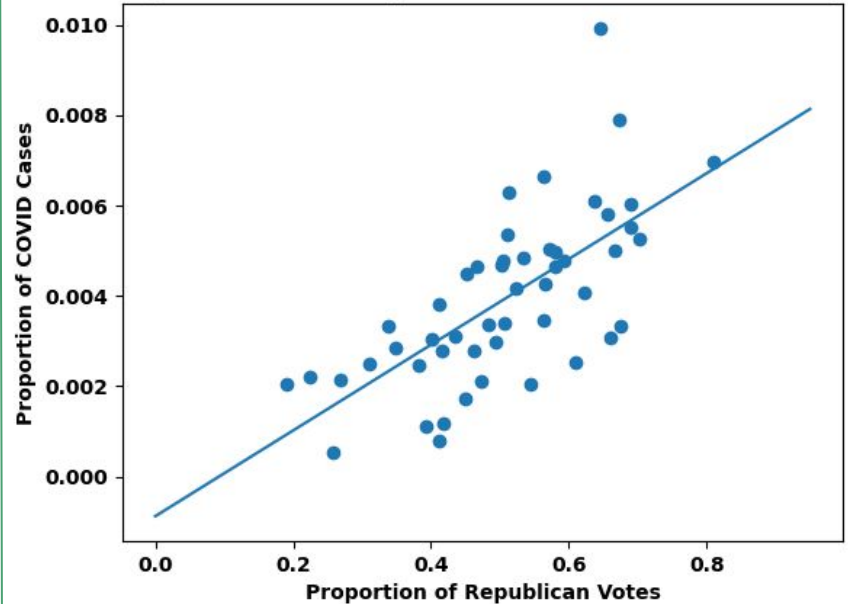

2020 Democratic Vote Proportion vs 2020 COVID Case Proportion

R-squared: **42.5%**

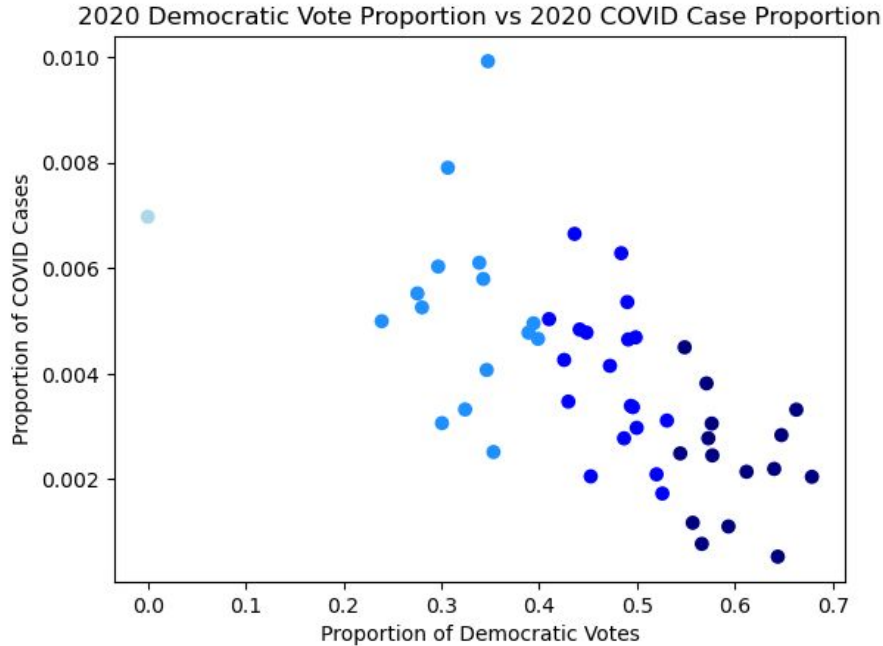

Republican

2020 Republican Vote Proportion vs 2020 COVID Case Proportion

R-squared: **46.6%**

Democratic Party (2020)

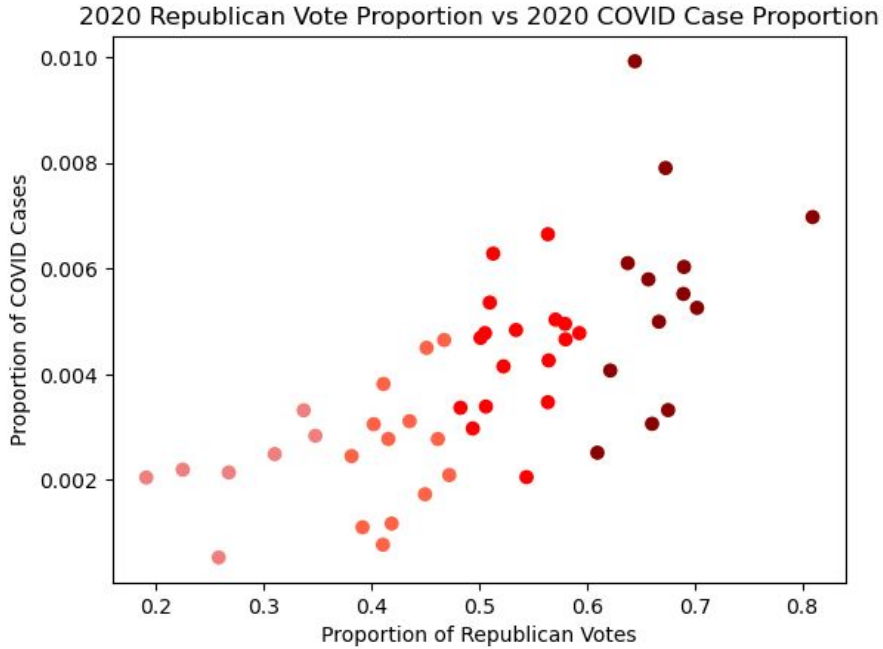

Democratic Party Clusters for House 2020 and COVID 2020

Note: Hawaii and Alaska not shown

Republican Party (2020)

Republican Party Clusters for House 2020 and COVID 2020

Comparison (2020)

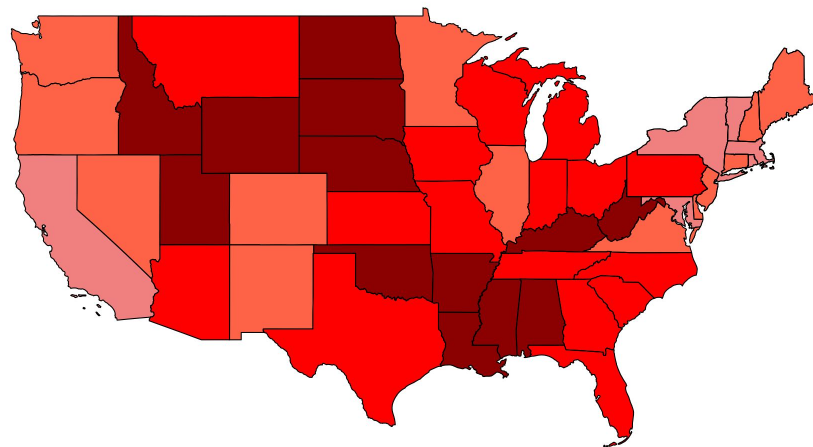

Democrat

Democratic Party Clusters for House 2020 and COVID 2020

Republican

Republican Party Clusters for House 2020 and COVID 2020

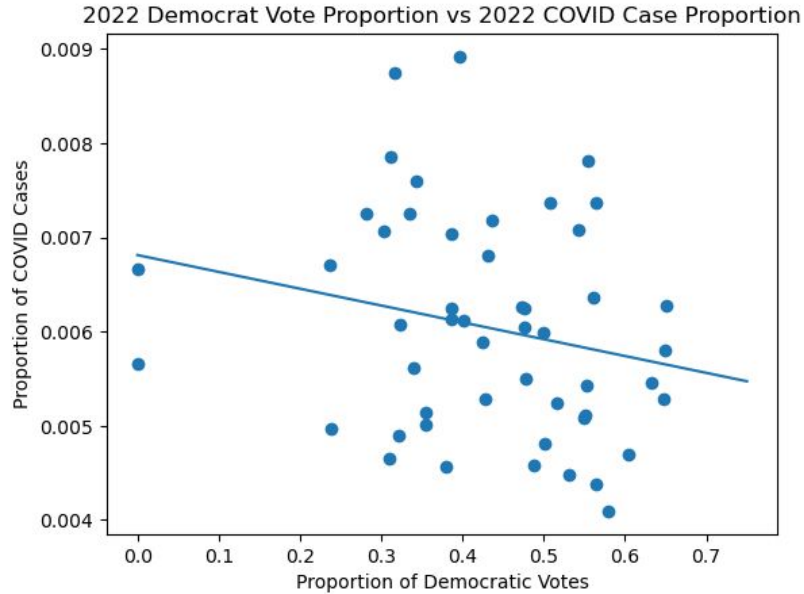

Note: Hawaii and Alaska not shown

The Year 2022

Simple Linear Regression (2022)

Democrat

R-squared: **4.91%**

Republican

R-squared: **9.0%**

Democratic Party (2022)

Democratic Party Clusters for House 2022 and COVID 2022

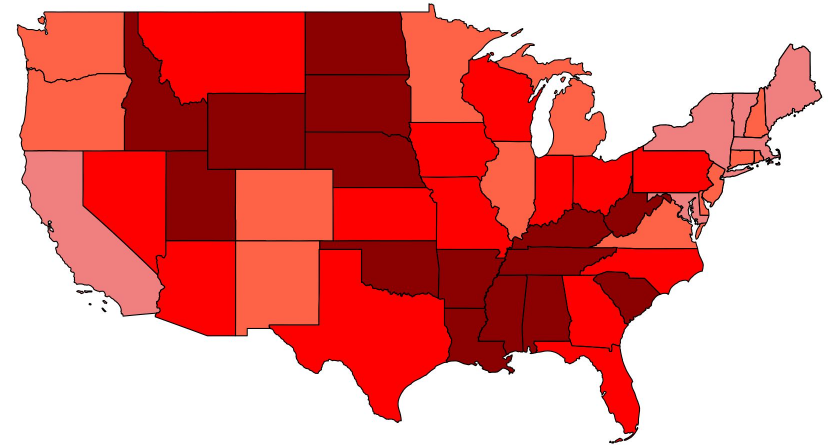

Note: Hawaii and Alaska not shown

Republican Party (2022)

Republican Party Clusters for House 2022 and COVID 2022

Note: Hawaii and Alaska not shown

Comparison (2022)

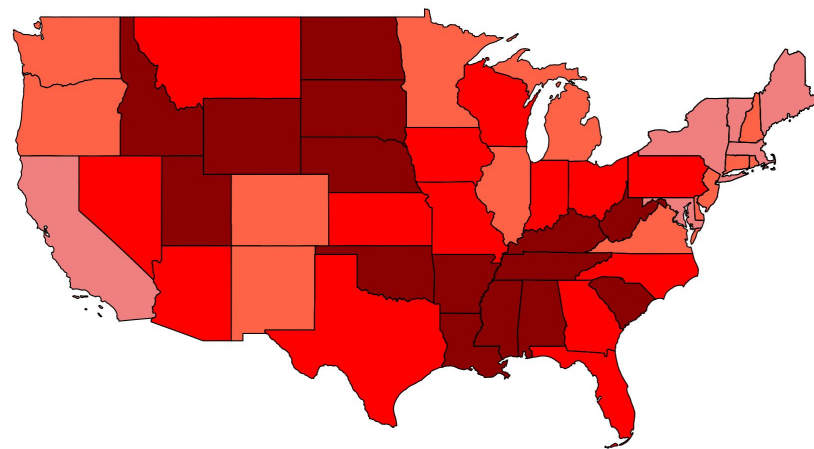

Democrat

Democratic Party Clusters for House 2022 and COVID 2022

Republican

Republican Party Clusters for House 2022 and COVID 2022

Note: Hawaii and Alaska not shown

Changes in clustering over time

Democratic Party

Democratic Party Clusters for House 2020 and COVID 2020

Democratic Party Clusters for House 2022 and COVID 2022

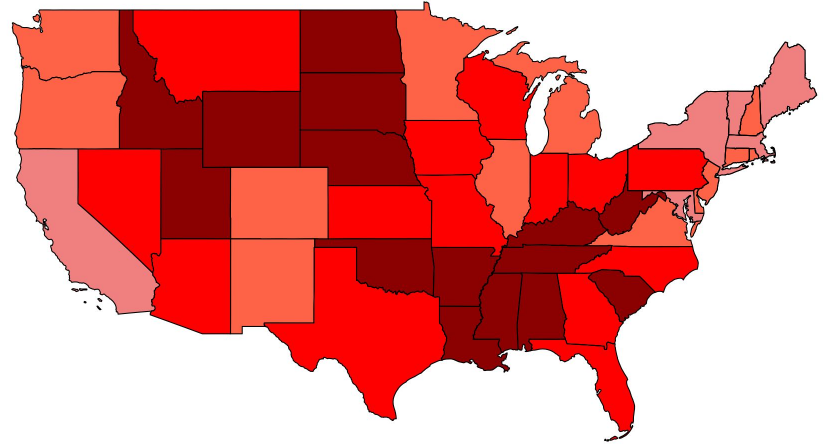

Note: Hawaii and Alaska not shown

Republican Party

Republican Party Clusters for House 2020 and COVID 2020

Republican Party Clusters for House 2022 and COVID 2022

Note: Hawaii and Alaska not shown

Conclusion

Conclusion

- Some correlation between house votes and COVID-19 cases in the year 2020
 - R-Squared of ~40%
 - Does not continue into 2022
- K-Means clusters are not geographically organized
 - More to do with state-level political affiliation

Next Steps

- Separate each state into its counties and to the analysis on the counties instead
 - Would require more specific COVID-19 Data
- Compare against other voting data, such as Senate or Presidential

Thanks!
